

# MY RHINO is NOT A MYTH

art science fictions

Curator — Adrian Notz

## Anca Munteanu Rimnic

Anca Munteanu Rimnic's works are characterized by subjectification and self-reflection. In transdisciplinary works with photographs, sculptures, videos, theater, audio pieces, and performances, she deals with natural and social phenomena in a tragicomic way. Even if loss and incompleteness are recurring themes, her art has a subtle and seductive humor, absurdity, and lightness. She operates with poetic yet precise sculptural gestures that concentrate on the creative process itself. Anca Munteanu Rimnic (\*1974) was born in Romania, lives in Berlin, and works internationally. She studied at the University of Fine Arts, Berlin, and received her Master's under John Baldessari at the University of California, Los Angeles. Her work has been shown internationally in institutions and galleries.
